

DELAY TACTICS CAN'T STOP OUR PROGRESS

CVS CORPORATE MAY BE DELAYING, BUT WE ARE NOT. WE SIGNED TWO MORE TENTATIVE AGREEMENTS THIS WEEK.

CVS is slowing their productivity at the bargaining table to a crawl, because they can see how **close we are to finalizing our first union contract.**

We are not slowing down one bit.

This week we won **powerful protections for layoff**, and we won protections for our holidays. Now **ECONOMICS** and **STAFFING** are the main issues left on the table, yet CVS Corporate refused to even respond to our latest Wage counter over our 3-day period of negotiations.

This means we have reached the final push of our campaign. We are prepared to do whatever it takes to make sure CVS hears us when we say we deserve a fair contract now, for our patients, and for our profession. National Pharmacy Week is coming up, and we will be sending a powerful message this year!

Most of our contract is already complete. ALL of the following articles are tentatively agreed to:

Agreement, Bargaining Unit Work, Non-Discrimination, Accommodations, Safety and Health, Union Representatives and Access, Payroll Deductions and Employee Information, Seniority, Employment and Hiring, Discipline, Grievance Procedure and Arbitration, Just Culture, Professional Practice, Professional Orientation and Training, Competencies and Assignments, Education and Professional Development, Hours of Work, Holidays, Parking and Transportation, Severability, Side Letter: Professionals
